

May 30,2023

Introduction: In memory of Ben Ryan, we made an attempt to creatively consolidate Bens outings, accomplishments, stats, photos, into a single place. This single place is stamped into 4 total, 6 layer plaques, issued to Jean, Nate, Katrina, and Daniel. One of the plaque pages contains a QR code and a link where you can digitally view Ben's information in PDF form. All of the information gathered was publicly available online coupled with Nates generated google photos.

I encourage anyone with the plaques to make their own data copies, coupled with physical copies for the purpose of data diversification in line with the 3,2,1 principle for the best chances of data survival and longevity.

Designed by Daniel Zavadil and Micah Boursier part of the Block Biome LLC minimal viable product line in remembrance of our dearly missed, much loved and beyond ambitious cousin.

Files (each file is scrape from the online source consolidated into a PDF):
